NHS Foundation Trust

ASPH Update

December 2024

Welcome to the latest update about Ashford and St Peter's Hospitals NHS Foundation Trust. We'd like to take this opportunity to wish you all a very happy and healthy festive season.

Appointment of New Group Chief Executive Officer

Ashford and St Peter's Hospitals NHS Foundation Trust and Royal Surrey NHS Foundation Trust are pleased to announce the appointment of Louise Stead as our Group Chief Executive Officer. This appointment follows a decision by the boards of each trust in October this year to establish a group model. The group will be a collaboration between the two existing trusts; each of which will remain separate organisations and maintain dedicated executive teams, boards and council of governors. **Read more**.

Call for people with diabetes living in North West Surrey

If you are living with diabetes, a resident of North West Surrey and would like to be involved in helping with the co-design of future diabetes services to ensure that the needs of our local communities are met. Please get in touch and email **gemma.hyland2@nhs.net**

Key Milestone Reached in Development of New Community Diagnostic Centre in Woking

The Community Diagnostic Centre development which is being built at Woking Community Hospital has reached a key milestone, following the installation of the building extension. The extension to the existing hospital building is made up of 10 large modular units which will be connected to the current hospital and will offer computerised tomography (CT), magnetic resonance imaging (MRI), as well as expanding the ultrasound capacity. **Read more**.

ASPH NICU identified as Outstanding Outlier for Two National Audit Measures

The Trust's Neonatal Intensive Care Unit (NICU) has been identified as an outstanding outlier for two measures in the **National Neonatal Audit Programme**. Data published by the Royal College of Paediatrics and Child Health, shows that the NICU team achieved this rating for retinopathy of prematurity (ROP) screening and two-year follow up assessments for preterm babies less than 30 weeks gestation. **Read more.**
