MACMILLAN CANCER SUPPORT

Together we care

NHS
Ashford and St. Peter's Hospitals
NHS Foundation Trust

Macmillan Cancer Support Centre coming soon to Ashford Hospital

The new Macmillan Cancer Support Centre will be a safe, supportive space for anyone affected by cancer, offering services like counselling, complementary therapies and support groups, tailored to meet the needs of our community.

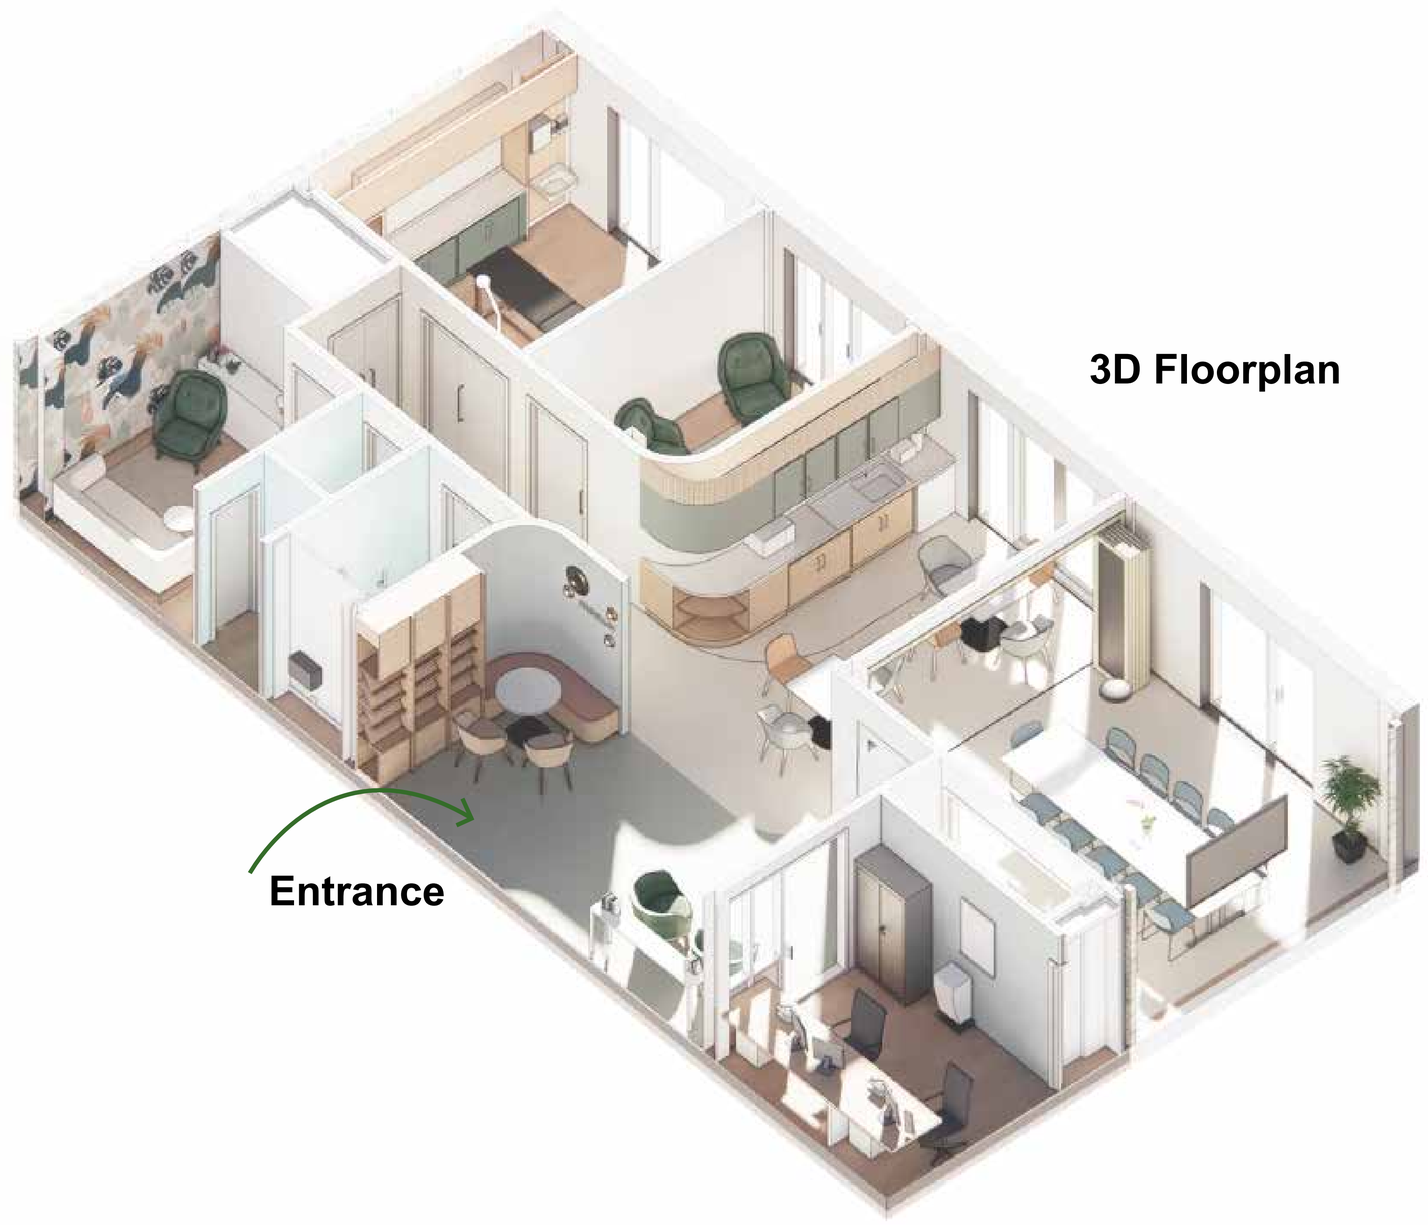

Since 1976, Macmillan has partnered with the NHS to create holistic environments for people affected by cancer. By co-designing spaces tailored to individual needs, we help reduce stress, enhance wellbeing and improve treatment outcomes.
